

Director of Finance

Description:

VerdeGo Aero is seeking a full time Director of Finance to join a world-class team leading the development of a fast-growing aerospace technology business. This role will have responsibility for financial strategy, modeling of scenarios for business planning, financial reporting, internal controls, and engagement with the investment community regarding current and future investment rounds. This position will also support implementation of legal contracts, periodic tax filings, leases, insurance, audits, accounting, budgeting, risk management, long term financial planning, and return of investment analysis. This person must be a team-oriented leader willing to play a strategic finance role on the leadership team while also being hands-on with tactical day-to-day financial responsibilities within the growing company.

Responsibilities:

- Direct work with the staff to budget, forecast, analyze, and manage the company's finances
- Provide timely and accurate financial data to plan and communicate the risks and growth opportunities.
- Financial consolidation, executive reporting, and analysis.
- Be able to develop and lead teams in order to establish new ideas relating to budgeting, financial management, and general business expertise.
- Negotiate and interface with customers to create fulfilling financial goals for the company, while developing strong relationships.
- Help develop long range financial plans and identify opportunities for revenue growth.
- Interact with existing and new investors to address financial requests.

Requirements/Qualifications:

- Bachelor's degree in finance, business administration, accounting, or economics.
- At least 5 years of relevant experience in financial management
- Negotiation experience
- Background knowledge in aerospace, technology, or manufacturing environment
- Strong leadership skills
- Experience modeling complex business scenarios to assess potential financial outcomes
- Experience with financing startup businesses and raising capital
- Ability to handle complex analytical and financial modeling
- Strong work ethic and team-oriented goals
- Distinguished communication and interpersonal skills.

Schedule:

- Full time position
